

ST. MARKS OUTREACH SPOTLIGHT

Habitat for Humanity

St. Mark's Habitat for Humanity outreach team all started with a mission trip to Appalachia. While helping families with housing needs there, our mission members thought, "Wouldn't it be great if we could do this in our own community?". And thus the team was born! Our Habitat for Humanity volunteers have been all over Wood County. We have built new houses, repaired old houses, helped veterans, and more. We've done everything from roofing, to hanging drywall, to redoing bathrooms, to landscaping. Whenever Habitat for Humanity of Wood County needs help, they contact our St. Marks team and our members then decide if they can help for that particular build or not. It's very flexible!

How can I help?

Our Habitat for Humanity team needs more volunteers! There are typically 4-6 homes built each year, so there is no shortage of people in need. Having a greater pool of volunteers would allow us to help out at more build sites. No prior construction experience is necessary, as we work with professional builders at each site. Volunteers must be at least 16 years old to work at a construction site and 18 years old to operate power tools.

Click here! or call 419-353-9305 to join the team!

"Did you know Habitat for Humanity hosts "Women-Build" events? These events are excellent for empowering women while simultaneously providing an opportunity to help community members in need!"

Isaiah 32:18 – "My people shall dwell in a peaceable habitation, and in sure dwellings, and in quiet resting places."
